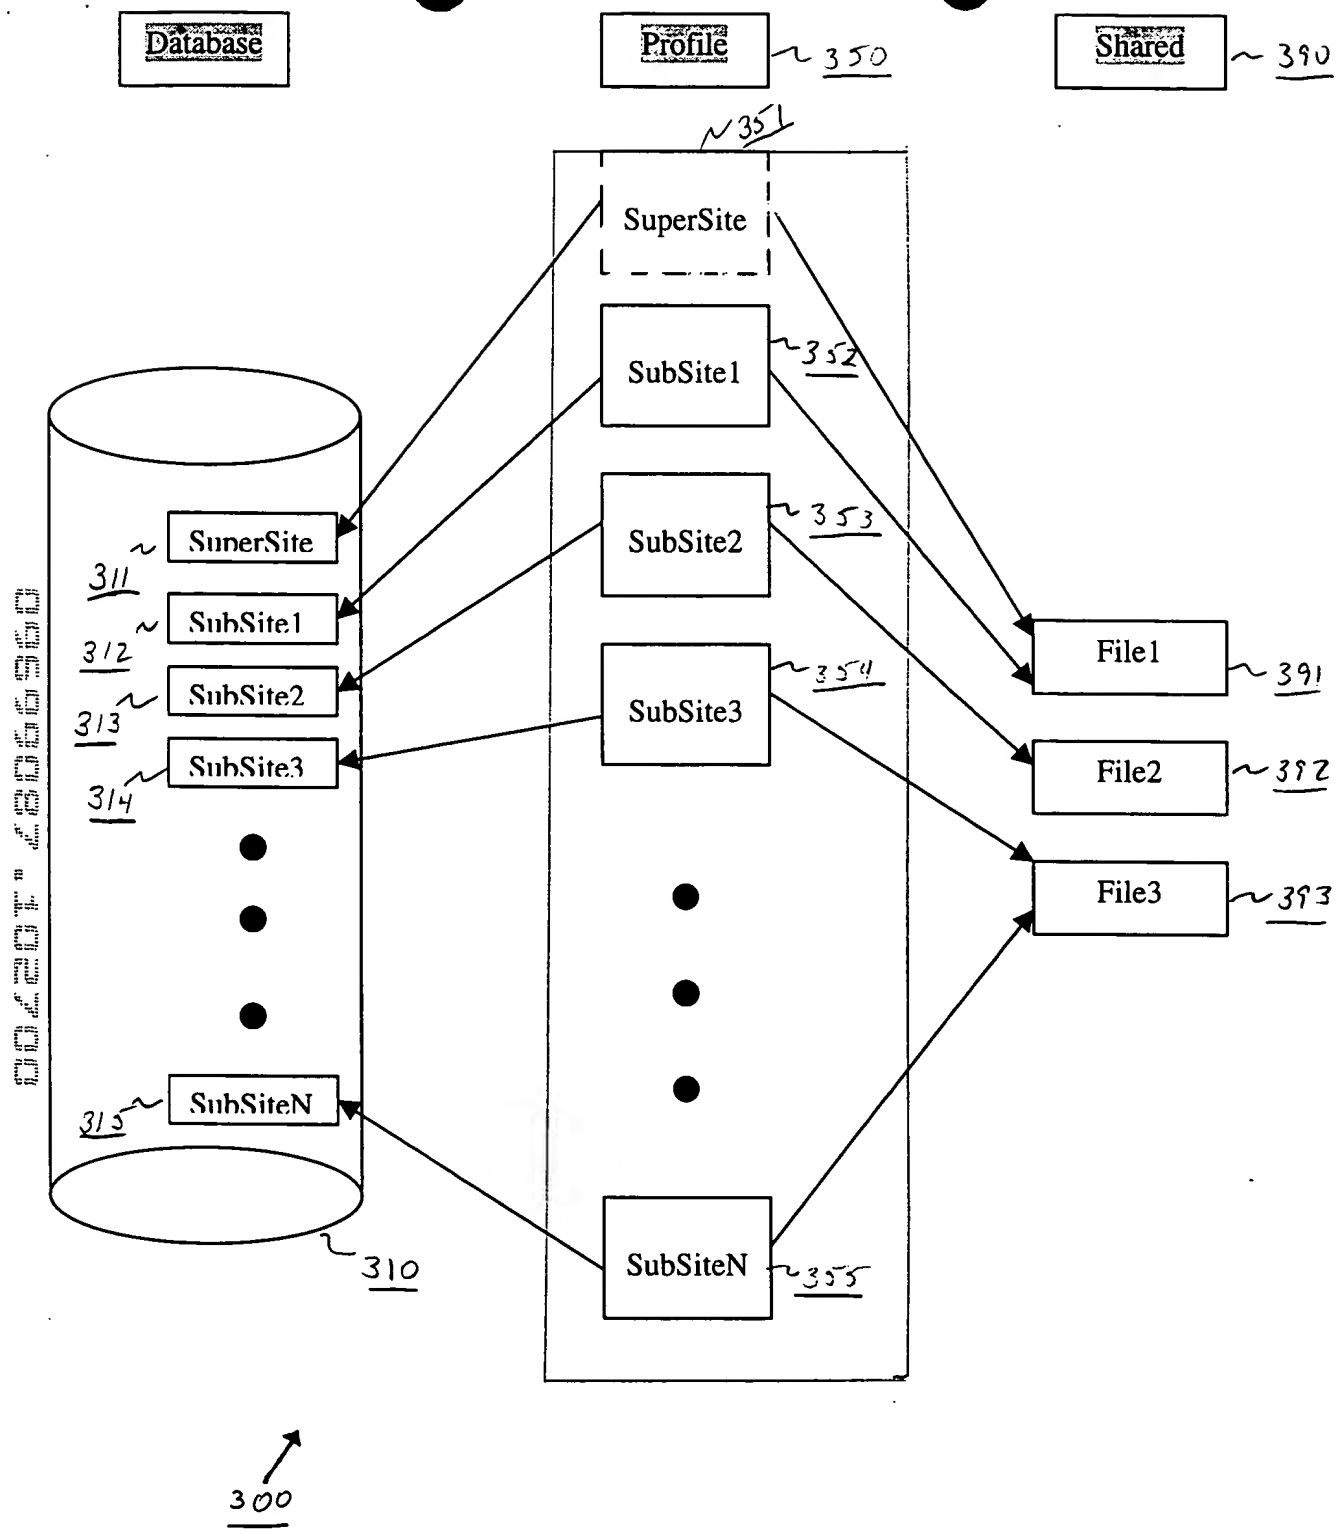

FIG. 3

```

sequenceDiagram
    participant User1
    participant superSite
    participant subSite1
    participant subSite2

    User1->>superSite: User1 logs on
    activate superSite
    superSite->>subSite2: User1 selects subSite2
    deactivate superSite
    activate subSite2
    subSite2->>subSite2: User1 continues with session
    deactivate subSite2
  
```

The diagram illustrates a session flow across three lifelines: **superSite**, **subSite1**, and **subSite2**. The process begins with **User1 logs on** (labeled 410) at **superSite**. This is followed by **User1 selects subSite2** (labeled 420), where the interaction moves from **superSite** to **subSite2**. Finally, **User1 continues with session** (labeled 430) at **subSite2**, indicated by a self-message arrow.
